Todos los valores fiat y precios se muestran en EUR salvo que se indique lo contrario. Las ganancias patrimoniales se han calculado usando el método contable FIFO (Lotes fiscales universales para cada moneda). Las permutas de criptomoneda a criptomoneda son hechos imponible. Los precios de mercado se obtienen utilizando el valor medio de mercado en el momento de la venta - excepto cuando el precio lo proporcione la plataforma de trading o se haya sobreescrito manualmente. Todas las fechas y horas se muestran en la zona horaria de Europe/Madrid.

Este informe puede ser empleado con propósitos fiscales sólo después de que usted o su asesor fiscal hayan comprobado su exactitud e integridad.
